

## **Provision for The Supply Of Equipment for Pardamat Cattle Enterprise**

### **I. Background of the consultancy**

The Maasai Mara Wildlife Conservancies Association (MMWCA) is a membership organization of all the Mara conservancies, open to any existing or upcoming wildlife conservancy whose land is part of or integral to the greater Maasai Mara ecosystem. The MMWCA is one of the 12 regional associations under the Kenya Wildlife Conservancies Association (KWCA) as envisaged in the Wildlife Conservation and Management Act 2013.

MMWCA's mission is: 'conserving the greater Maasai Mara ecosystem for the prosperity of all: biodiversity and wildlife, the regional Maasai population, recreation and tourism for the nation of Kenya'.

The MMWCA has three key objectives;

1. Provide a space for open discussions, a hub for knowledge sharing and coordination across conservancies, a voice for advocacy, lobbying county and national government and driving policy in the interest of conservancies and conservation related issues.
2. Support the creation and development of conservancies and their neighboring areas across the greater Mara ecosystem, as a sustainable form of land-use and to provide mechanisms for equitable and value-based benefit sharing to sustain land under conservation.
3. Lead or/and implement development and conservation programs across member conservancies to facilitate coordination, collaboration and synergetic action.

### **II. Purpose of the works involved**

The objective of this assignment is to supply MMWCA with equipment for Pardamat Conservancy's Cattle Enterprise program.

***For the Greater Mara***

P.O. Box 984 - 20500, Narok, Kenya, +254 (0) 715 047 047, [contact@maraconservancies.org](mailto:contact@maraconservancies.org)
